

EXCELLENCE in QUALITY

As Building Mangers of Parc Apartments, Hannah Edwards and I shared with the Body Corporate a vision of presenting the complex in a pristine and worthy manner. We were looking for a bold, modern new look. A new style for our city apartments that so many call home.

Parc Apartments is in a prime location upon the corner of Coronation Drive and Exford Street, at the fringe of the Brisbane CBD. A high-profile position with 8 levels offering views toward the South Bank precinct and North Quay.

We first had to establish colour choice to capture the architecture of our structure. A worthy venture into creating an enhanced image was quickly underway. The professional white background coupled with deep blue and complimentary earth tones has proven to be an ideal combination, and delivers an appropriate building statement for this project.

Colour choice was just the beginning of the mammoth task. It was imperative to seek dedicated and experienced partners, such as the paint applicator and the project manager, to assist us with our vision.

Lee Tait of LRT Consultancy and Darryl Hathway of Darryl Hathway Painting Pty Ltd were engaged to accompany and add to the passion we hold for Parc Apartments. It was important they shared our vision for an outstanding landmark of Brisbane, positioned to greet thousands of commuters into the CBD on a daily basis.

A no compromise strategy was adopted in terms of how the project was to be managed. From the commencement of works to the final unveiling, it was an all hands-on deck approach over the 20 week time frame. Throughout the works Darryl Hathway provided a professional, determined team who shared our vision for Parc Apartments.

The project was refurbished with all defects repaired and the paint coating system chosen was an ultra-premium high film build water hold out membrane – an ultimate paint coating system over approximately 5,000 sq metres of surface.

Darryl Hathway and his team excelled in performance, and with the project managed by Lee Tait from LRT Consultancy the end product is an excellence in quality.

Our faith in the expectation of high end workmanship has been restored. Parc Apartments has been revitalised by the committed paint applicators employed directly by Darryl Hathway Painting Pty Ltd. No issues hindered the delivery of quality from this firm and the communication and diligence was more than anticipated. We thank the Darryl Hathway team for their knowledge, ability and professionalism.

It was evident that Darryl Hathway Painting Pty Ltd take ownership of their projects whilst always looking at the long-term, not just immediate duration of the project.

Photographs and video of Parc Apartments proudly represent the quality of this achievement. These can be viewed on the website of Darryl Hathway Painting Pty Ltd.

TESTIMONIAL DELIVERED BY JORDI NIN, BUILDING MANAGER PARC APARTMENTS
